

Reassurance, Understanding, and Support when you need them the most.

“Peer Support on Call”- a free service offered by the National Bone Marrow Transplant Link

Emotional support is available through one-on-one conversations with trained peer support volunteers who are bone marrow/stem cell transplant (BMT) survivors, caregivers and marrow donors. Since they have been through the BMT experience themselves, they understand the patient’s and caregiver’s feelings and can provide an empathetic point of view. For BMT patients and caregivers, peer support is only a phone call away.

If you would like to request a phone call from a peer support volunteer, please call our office at **800-LINK-BMT (800-546-5268)**.

For additional nbmtLink resources, visit our website at www.nbmtlink.org
